

Dear Sir:

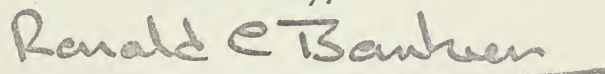

Have you appreciated that LASERS
in spite of so much ambitious publicity
are actively being used
in almost every facet of engineering science?,
and that LASER FOCUS
is a complimentary full color monthly magazine
received by 7500 of your colleagues

If you wish for us to serve your interests
in LASER/ELECTRO-OPTIC technology
you may complete and return the qualification card
for consideration by our complimentary subscription auditor.

A copy of the 1967 LASER MARKETERS' AND BUYERS' GUIDE directory
will be provided to successful applicants
to bring you up to date with our compliments.

Many thanks for your attention.

Yours sincerely,

Ronald C. Barker
Associate Publisher
